MUSIC TO YOUR EYES

FRIDAY-SUNDAY: Tampa's wonderful Florida Museum of Photographic Arts is so much more than a cool downtown space where incredible images hang. For instance, this weekend's **Prodigy Showcase** exhibits the fruits of FMO PA's partnership with the Prodigy Art Program, which immerses economically, culturally or otherwise disadvantaged children in the world of the arts, providing not only a window to the world of aesthetic expression but also the confidence, imagination and life skills that come along with a well-rounded education. Friday's opening does the whole amazing thing one better via a violin recital by kids who've benefited from the free lessons TFO gives through its own partnership with Prodigy. 400 N. Ashley Dr., Cube 200, Tampa. Friday opening at 4 p.m., recital at 6 p.m. fmopa.org. —**SH**
